A BOOM IN EMIGRATION.

THE ARRIVALS THIS YEAR THE LARG-
EST SINCE 1882.

An Average Arrival of 140,000 a Year the
Past Century—The Largest in One Single
Year Was 738,003—New Hampshire to
the Front With a Senatorial Struggle.

WASHINGTON, April 23.—Reports from the
ports of entry in this country, and those of
embarkation abroad, lead to the belief that
we are to have an unusually large emigra-
tion this year. Over four thousand emi-
grants landed in New York one day last
week. From one port in Europe there sailed
over six thousand persons for this country
during the month just passed.

In Queens own, according to reports reach-
ing here, there are large numbers awaiting
transportation, so many, the report says,
that the streets are lined with the camps
of these prospective voters and citizens and
ward politicians of the United States. It
looks as though the downward turn which
the emigration record took three years ago
is to be reversed, and that, perhaps, the
number may this year run higher than ever
before.

The largest number of emigrants ever
landed in this country in a single year was
738,003. Almost three-quarters of a million.
That was in the year 1882. The next year
there were 603,322, the year following 518,
592, the next year 305,346, and last year 334,
203. The total number of emigrants landed
in this country in the past century is in
round numbers, 14,000,000. That is an easy
figure to remember, to; 100 years, 14,000,000
emigrants, an average of 140,000 a year.
This does not mean that this number of for-
eigners landed on our shores in that time,
but it means that this number have come to
stay. In this estimate is not included the
thousands who have come as sight seers or
tourists or for business purposes. There was
no accurate record kept by the customs offi-
cers until 1820. From that time on down
the department records show the exact num-
ber of arrivals, and where they are from.

It is estimated that the arrivals prior to
1820, from 1787 to 1820, were something over
a quarter of a million. From 1820 to the
close of 1886 they were 13,448,557. Of these
nearly one-half have come from Great
Britain and one-third from Germany. Ire-
land and Germany have vied with each other
in furnishing citizens for the new world, but
Germany, by reason of her much greater
population, has outrun Ireland in the race
just a little. They have each of them sent
between three and four million of people
here. Within the past few years the Ger-
man immigration has much outnumbered
the Irish. The Irish and Germans number
about 3,500,000 each, the English about 1,
000,000; Swedes and Norwegians, 350,000;
China, 275,000; of which number one-half
have returned to China. The largest num-
ber of Chinamen arriving in any one year
was in 1882, when over 35,000 were landed
in the United States.

Another Senatorial Fight.

WASHINGTON, April 23.—It is curious how
the senatorial fights continue to pop up all
around yet. The general impression was that
the agony of senatorial making was over for a
year or two, but here they are showing up
again all round. The Florida contest which
has been running along for a considerable
time had not got out of the way when New
Hampshire came to the front. The legisla-
ture of New Hampshire sits in midsummer
instead of midwinter as everywhere else.
The acute framers of the state constitution
saw that the legislature was likely to be
made up mostly of farmers, and were wis-
e enough to know that a legislature of farmers
meeting in midsummer would be much more
likely to "hustle" than one which meet in
winter. Hence it is that there is a senatorial
contest coming to the surface in New Hamp-
shire this summer.

As usual the most talked of candidate is
Mr. Chandler, ex-secretary of the navy. He
is a perennial candidate for the senate from
his state, and the indications are that he
will win this time, in a measure at least.
Whether he will succeed in all that he wants
to accomplish is doubtful. He wants, it is
said, to not only elect himself for the unex-
pired term made vacant by the death of Sen-
ator Pike, but for the six years' term which
is to follow it. The unexpired term ends
March 4, 1887. The legislature, when it al-
ligns this summer, will not meet again un-
til June, 1887. So there would be a period of
three months in which the important state of
New Hampshire would only have one sena-
tor, unless the governor should appoint one
temporarily. The question then arises
whether the legislature, which is to meet
next summer, should not elect a senator for
the long term, as well as the short one.

Ohio Wheat Crop.

WASHINGTON, April 23.—The monthly re-
port of the agricultural department gives the
condition for winter wheat for Ohio as fol-
lows: Present outlook for wheat is cer-
tainly not flattering. Unless decided im-
provement shall become manifest within a
few weeks the crop will fall far short of last
year's production. The condition of soil at
sowing time was favorable, except that very
late sown on corn stubble. There was a rea-
sonable amount of snow protection during
severe part of winter when it was most
needed. Upon disappearance of snow wheat
looked green and gave promise of early and
strong growth. Heavy rains since and so-
vere cold and freezing during March seri-
ously blighted the prospects.

Watching American Fishing Schooners.

St. JOHN, N. B., April 23.—Correspond-
ence from Grand Manan says on the 12th
instant the Canadian fishery cruiser Vigil
laid away her fore top mast while
pursuing the American schooner Hattie
Maud. The cruiser fired a shot or two after
the Hattie Maud to make her heave to, but
she paid no heed to the signal and continued
to Eastport. The letter does not state
whether blank or solid shot were fired. A
great many fishing vessels are about the
mouth of the Bay of Fundy looking for the
bait, and the commander of the cruiser has
his hands full in watching them.

Agitating Prohibition in Canada.

OTTAWA, Ont., April 23.—The Dominion
alliance here has decided that a bill be intro-
duced in the Dominion parliament provid-
ing for total prohibition.

GENERAL FOREIGN NEWS.

Affairs Growing Critical Between France
and Germany—Cable Notes.

PARIS, April 23.—The arrest of the French
Commissary Schnaebels, of Pagny-Sur-Mo-
selle, by the German police, after he had
been decoyed over the frontier, is regarded
as a serious matter in official circles. M.
Goblet, the prime minister, and M. Flourins,
foreign minister, were in conference until
midnight last night for the purpose of deter-
mining what action to take in the premises,
and they again met this morning to further
consider the subject.

After several hours' deliberation they de-
cided that the government would not com-
plain to Germany of the arrest of M. Schnaebels
until full inquiries have been made into
the case.

The French newspapers generally regard
the occurrence as a direct provocation on
Germany's part, and exhort 'the people to be
calm, and not to play Prince Bismarck's
game.

The Intransigent, of which Henri Rochefort
is editor, is the only paper that is rabid
in its comments on the affair. The other
Paris papers are moderate in their references
to it.

Later dispatches confirm the statement
that M. Schnaebels was arrested on French
territory. M. Flourins will await the result
of a minute inquiry on the spot before de-
manding reparation of Germany for the
arrest.

M. Schnaebels' arrest is badly interpreted
in the stock market and rents have fallen.
The quotation of 3 per cents. for the account
is 75 francs 80 centimes from the closing
price last evening.

The performance of Wagner's opera,
"Lohengrin," which was to have taken place
at the Eden theater, in Paris, to-morrow, has
been postponed owing to the feeling that has
been caused by the frontier occurrence.

A Nihilist Suicide.

St. PETERSBURG, April 23.—A chorister
in the Military Academy church committed
suicide yesterday by jumping from a win-
dow of his house. On being searched the
house was discovered to be a Nihilist ren-
dezvous. A quantity of dynamite arms and
revolutionary documents were found.

Herr Windthorst's Threats.

BERLIN, April 23.—In opening the debate
on the ecclesiastical bill in the reichstag yester-
day, Herr Windthorst declared on behalf
of the Centrists that should the bill be
amended in any way unfavorable to the
papal demands, they would reject it alto-
gether.

DAKOTA PROHIBITION LAW.

Their Strict Enforcement Will Greatly In-
jure the Business of Fargo.

FARGO, Dak., April 23.—The late legisla-
ture provided for the submission of the
question by counties on petition of one-
third of the voters. Fargo is the great
stronghold of the anti-prohibition influence
outside of the Black Hills. It has about fifty
saloons, two breweries and several wholesale
liquor houses. The city contains but one-
third of the votes of the county, and it is be-
lieved the county vote will over-balance the
license vote in the city, and drive the saloon-
out of the county.

This would make an enormous gap in the
business of the city, and the beer and liquo-
interests are so allied that they refuse to
make the proposed concessions. The at-
tempt to enforce prohibition in the city will
produce intense excitement and antagoniz-
the business interests. The new mayor an-
nounces that he will enforce the Sunday
laws impartially, and close all stores and
shops as well as saloons.

Frankfield.

SKOWHEGAN, Me., April 23.—Walter
Chase, of Clinton, was fatally shot by his
brother, aged about seventeen years, yester-
day afternoon. The latter had been out
gunning, and returned to his brother's house,
making a great noise. Walter went to the
door, remonstrated with him and turned to
go into the house, whereupon the young man
fired upon him. Chase about a year ago ex-
hibited signs of insanity.

A Floor Gives Away.

PITTSBURG, April 23.—Early yesterday
evening a section of the fourth floor in a
seven story brick building, on Seventh
street, owned by Arbuckle & Co., limited,
and occupied by Tate & Meyer, commission
merchants and fruit dealers, suddenly gave
way with a thundering crash, carrying down
to the cellar a mass of timbers, together with
a large quantity of merchandise. The cause
of the accident is supposed to have been a
defective girder. The entire structure was
erected two years ago, and was considered
most substantial in every respect. The em-
ployees in the building rushed into the street
at the first sound, escaping uninjured. The
damage to the building and contents is esti-
mated at \$30,000.

Wheat Blockade Raised.

DULUTH, Minn., April 23.—The new
1,500,000 bushel elevator of the Lake Superi-
rior Elevator company was declared regular
by the directors of the board of trade
Wednesday, and yesterday received its first
consignment of twenty cars of wheat. The
elevator cost \$150,000 and has been built
since the middle of December. A consort
house will be built later in the year. The
completion of this elevator raised the wheat
blockade which has existed here since the
1st of January. Another elevator of the
same capacity will be completed by the 1st
of August.

Justice Field Out of the Race Forever.

NEW YORK, April 21.—A Washington
special to the Herald says: A California
gentleman who is a close personal and politi-
cal friend of Justice Stephen D. Field, says
that that gentleman is out of the presiden-
tial race forever. He says Mr. Field would
not consent to the use of his name in that
connection even if a solid delegation from
California could be sent to the next presiden-
tial convention in his favor.

Prominent Citizen Takes Poison.

LITTLE ROCK, Ark., April 23.—W. H.
Brown committed suicide by taking a dose
of morphine. The cause is said to have been
family trouble. Mr. Brown was a promi-
nent and wealthy citizen of this city.

Returning to Duty.

CHICAGO, April 23.—Postmaster General
Vilas and Thomas E. Nash, superintendent
of the railway mail service, are in this city
to-day on their way to Washington.

AN IMPORTANT MOVEMENT.

THE LARGEST CONSOLIDATION OF
LABOR EVER YET FORMED.

All the Socialistic Organizations of the
United States, the International Work-
ingmen's Association and the Working
People's Association to Consolidate.

CHICAGO, April 23.—It is reported that the
three great Socialistic organizations of the
United States—the Socialistic Labor party,
the International Workingmen's association,
and the Working People's association—are
about to coalesce and form one body, with a
general executive board and as a unit will
take part in all political fights, municipal,
state and National. It is stated that a com-
mittee has been appointed to draw up a plan
for the reorganization of all the bodies, to
be presented to the National conference
which will be called in a few days either in
Kansas City or Chicago.

The importance of such a movement must
come with great force to one who has given
consideration to the labor movement, the
Socialistic growth and the Anarchistic up-
rising in this country. The great power that
will be wielded by a few men on the execu-
tive board may menace existing laws. In
large cities it can drive from the field the
party with which the members of the bodies
have hitherto voted.

Labor Troubles at Cincinnati.

CINCINNATI, April 23.—Little that is new
and nothing unusual has occurred in the
molders' difficulty that is now in progress
here, and which is spreading through the
country. The rate at which it is traveling
indicates that before many days it will be of
National dimensions.

The trouble between the carpenters and
the mill men is still on. The former held a
meeting yesterday morning, in which much
enthusiasm was manifested. They seem satis-
fied to remain as they are, and to still hold
out for absolute compliance with the original
demand.

The stonecutters hold an enthusiastic meet-
ing at Bricklayers' hall last night, and all of
those present expressed themselves as deter-
mined to stand out for the eight hour plan.
All members of the union who needed money
were supplied to the extent of \$20 each. All
stonecutters of other cities were also warned
to keep away from Cincinnati.

Yesterday morning sixty blacksmiths in
the employ of Hiram Davis & Co., carriage
manufacturers, on Flint and Denman streets,
went on a strike, to which Mr. Davis de-
clared his inability to accede. A compromise
was offered, but was not satisfactory.
The hotel carriers are still hinging on to
the conviction that they should have an in-
crease in wages. But success does not seem
destined to be theirs in this instance. Other
men are taking their places, and the brick-
layers have taken not the slightest interest in
the affair.

Powderly Called to Time.

CHICAGO, April 23.—Local Assembly No.
1925, by a committee, calls Master Workman
Powderly to time for his reflections on the
political party that put Mr. Nelson in the
field in Chicago this spring. A letter is pub-
lished addressed to Messrs. Powderly and
George Rogers, in which they assert that the
utterances attributed to Mr. Powderly re-
garding the Knights of Labor of Chicago
and their alleged connection with Anarchy,
has done more toward bringing the order
into disrepute in this city than the most
rabid opponent of the workingmen could ac-
complish, and a resolution was adopted re-
fusing to ratify or sanction the expressions
contained in Mr. Powderly's address on the
7th instant so far as it refers to the recent
election in Chicago; and, furthermore, that
Messrs. Powderly and George Rogers' utter-
ances have a tendency to bring into disre-
pute the whole membership of the Knights
of Labor in this state, through misrepresen-
tation and garbling by the public press to
suit the whims and ideas of the editors and
the special class who give their support to
such papers.

Molders Not Satisfied in Detroit.

DETROIT, Mich., April 23.—The Detroit
molders object decidedly to the dumping of
more foreign patterns here, and are ripe for
a strike. The statement by President Grib-
bong, of the Defense association, that De-
troit would be given all the patterns if other
points refused, has excited the men a great
deal. The impatience of the men at their
meeting last evening, gave reason for this
belief. It needed but a word to have all of
them out this morning. The members of the
district executive board, who were present,
did what they could to allay the combative
feeling which permeated the meeting. Ap-
parently they succeeded, for it was resolved to
await the action by the general executive
board, but it was very apparent that the
decision reached went against the grain.

Trouble of Silver Chasers.

NEW YORK, April 23.—J. S. Knowles, of
Providence, R. I., have joined the silver
manufacturers' combination, and locked out
his force of 100 employees. There are now
1,400 persons locked out. All employees, on
reporting for duty at the combination fac-
tories to-day, were requested to sign an iron-
clad agreement to renounce all present or
future allegiance to labor organizations. No
Knights of Labor signed it, but non-union
men did. The lockout is hurting the trade,
but those who are running it declare they
will quit the business rather than yield their
point.

Shut Down at Erie.

ERIE, Pa., April 23.—The introduction of
the "struck patters" from St. Louis in the
South Erie Iron works resulted, first, in a
lockout of the union molders, and then in
the shutting down of the works, in accor-
dance with the policy of the Defense associa-
tion. Secretary Thomas, of the District of
Pennsylvania Molders' union, stated last night
that the order had gained 600 within a very
short period, increasing the number to about
3,000.

Freight Conductors and Brakemen Strike.

TUCSON, Ariz., April 23.—Freight conduc-
tors and brakemen on the Southern Pacific
between Zuma and El Paso struck Wednes-
day night. The cause of the strike was that
4,000 miles are considered a month's run,
while the strikers ask that 3,000 miles be
considered a month's run at the present
wages. The company retorts that twelve
hours constitute a day's work.

CYCLONE IN KENTUCKY.

The City of Paris Almost Entirely De-
stroyed by a Terrible Tornado.

CINCINNATI, April 23.—The Evening Post's
special from Paris, Ky., says: Clocks had
scarcely ceased striking 8 this morning when
the city was startled by a terrific rumbling
sound from the west. A violent rain was
beating down at the time, and many thought
the rumbling was caused by thunder. The
illusion was quickly dispelled, however, when
a tornado struck the city with inconceivable
energy, tearing roofs from the houses,
smashing windows, tearing away signs and
shutters, knocking down a few pedestrians
who were luckless enough to be on the street,
and darkening the air and throwing the
ground with debris from wrecked buildings.
The storm passed in a few minutes, going
eastwardly, and leaving behind a pathway
of ruin fully 400 yards in width. Luckily
no one was killed. Heavy loss was caused
among the buildings.

The heaviest damage was done at Turney,
Clark & Mitchell's livery stable, where thirty
feet of brick wall was blown down, the
roof lifted up and carried bodily across the
street, and settling down upon the roof of
John Griffin's residence almost smashed that
building. The greater portion of Overbrie's
tobacco warehouse was unroofed. Mrs. Hor-
rick's boarding house was almost totally de-
molished, the walls being caved in and the
roof carried away and smashed into kind-
ling. Mrs. Carson's residence was also un-
roofed, the roof being carried across the
street, where it lodged against other houses.
The roof from G. G. White & Co.'s distillery
was carried out of sight by the wind. The
heavy roof of the Paris flour mills was torn
from its moorings, partially slid off, and left
in bad condition. The steeple of the Baptist
church was badly twisted, and now leans far
over the street in a dangerous manner.
Many trees were uprooted, and, together
with other wreckage, were strewn in all di-
rections. Reports from the country say
enormous damage was done by the tornado.

ANNEXATION OR CIVIL WAR.

The Nova Scotia Legislature Discussing
Their Critical Situation.

HALIFAX, N. S., April 23.—An exciting
debate took place in the Nova Scotia legisla-
ture yesterday on the secession question.
Premier Fielding, in moving a series of reso-
lutions on the question, explained the his-
tory of the agitation. There was nothing
now left to do but to make another effort
to obtain larger financial aid and improved
commercial relations from the Dominion
government. Then the secession issue would
be again revived, and an appeal be made di-
rect to the people. The premier's speech was
received very coldly. Mr. Fraser, known as
"the apostle of secession," moved an amend-
ment for secession pure and simple, and de-
clared that only one of two things would
stop the secession—reciprocity with the
United States or absolute free trade.

Mr. McCall moved to add to the primo
minister's resolution that the government be
instructed to keep the expenditure within the
revenue, and take immediate steps to secure
the admission of Nova Scotia as a state of
the American union. Mr. Call's motion
caused a sensation. Mr. Black advocated a
legislative union of Nova Scotia, Prince Ed-
ward Island and New Brunswick. He de-
clared that the continuance of the secession
agitation would result in either annexation
or civil war.

A Falling Wall.

CINCINNATI, April 23.—At 10 a. m. the
large retaining wall on the west side of Mar-
tin street, near Hill, east of the Third street
reservoir, gave way, crushing a carpenter
shop at 110 Martin street, and driving the
tenants from Nos. 108 and 108 in terror. The
tenement houses are occupied by J. L. Hart,
the agent for the houses, Frank Julien, A. A.
Bartlett, Ernst Daninger, and a family
whose name could not be learned. Miss
Maggie Bartlett, daughter of Mr. A. A.
Bartlett, and a little child of Frank Julien,
were lying ill in the house when the crash
came. Household goods were hastily re-
moved, and the two sick people taken to the
houses of kind neighbors. Every moment
they expected to see another section fall and
bury the other houses.

Pennsylvania Enoch Arden.

READING, Pa., April 23.—About seventeen
years ago Benjamin Zimmerman, a well-to-
do farmer of Hereford township, this county,
mysteriously disappeared. Every effort to
obtain some clue as to his whereabouts was
without success. His wife and three
daughters managed the farm, and prospered.
The wife, under the belief that her husband
had died in the far west, wedded again.
Last evening a stranger appeared, and he
finally introduced himself as the long missing
Benjamin Zimmerman. He had been a resi-
dent of Buffalo, N. Y., for some years; and
claims to be the owner of three valuable
properties in that city. It is understood
that his wife will cast off her second husband
and return to her first love.

Bald Knobbers Emigrating.

OSARK, Mo., April 23.—The grand jury
yesterday indicted all of the Bald Knobbers
now under arrest, eleven in number, for the
murder of George Edens. It is reported that
Judge Hubbard's instructions to the grand
jury have spread terror throughout the Bald
Knobbers' section about Chadwick, and that
a general exodus of the unmasked brother-
hood will take place soon.

First Case of the Kind.

CHICAGO, April 23.—Leading lawyers here
express the opinion that the sermon preached
by Elder Axtell to the Schwartz-Watt jury
will be sufficient to ensure the convicted men
a new trial. It will be the first time in the
legal annals of this country that such a rea-
son has been assigned for setting aside a ver-
dict.

Trade Dollars From China.

SAN FRANCISCO, April 23.—The steamer
City of Sydney, which arrived to-day from
China and Japan, brought one hundred and
eighty thousand trade dollars, which are to
be redeemed for standard dollars. The last
Chinese steamer brought two hundred and
seventy thousand.

Killed By Indians.

VERNON, Tex., April 23.—News has just
reached here that a band of Kiowa and Com-
anche Indians killed W. A. Strinson and
two of his men near his rancho, in Griser
county, Tuesday. It is feared that a general
outbreak is imminent.

SATURDAY EVEN'G, APRIL 23, 1887.

LOCAL option was carried at Russellville, Ohio, but was defeated at Moscow and Neville.

If General Buckner should fail to carry Bourbon County this afternoon, it will be a terrible blow to the editor of the News.

The Democratic County Convention to-day will decide who's in the lead for Governor, and the decision will be in favor of Senator Harris.

The Buckner followers of Bourbon are for Professor Taylor for Superintendent of Public Instruction. Professor Pickett's friends should remember this at Louisville.

The Republican says that "with a depot on Front street, loafers will swarm around it thicker than flies around a sugar hogshead." This settles it, and the depot will have to be built in the West End.

For the information of the Louisville Times and the Lexington Transcript, the BULLETIN states that the only combination so far reported in this county was made by the friends and backers of Judge Hines and General Buckner. Senator Harris fought his own battles.

The temperance people of Fleming County have petitioned the Governor to remit the fines against Stickrod, the distiller, for violations of the liquor law. Mr. Stickrod has promised to quit the business of manufacturing and dealing in liquor, and that is all the temperance people want.

The liquor dealers are becoming alarmed at the steady progress being made by the temperance cause of the country. A meeting of the National Protective Association of Distillers and Wholesale Liquor Dealers was held in Cincinnati recently to raise money to defeat prohibition in Texas.

Our esteemed contemporary the Republican isn't pleased with the BULLETIN's silence on the depot question. We thought the City Council had already settled the matter. That's what its action the other night would indicate. But for the information of the Republican, we'll say that we're not especially concerned over the location of the depot, and have no axes to grind for ourselves or friends.

The annual meeting of the Homeopathic Medical Society of this State will be held in the court house at Lexington on the 4th and 5th of next month. "An interesting time is promised," says the Transcript, "as not only the Kentucky Homeopathic physicians will participate in its discussions, but several representative physicians of that school from Chicago have signified their intention of being present. The Homeopathic system of practice is making rapid strides in establishing hospitals and institutions of learning in all the prominent cities of the country, and is endorsed by a large per cent. of the intelligence and culture of the land."

"Isn't that Mrs. Holmes? I thought the doctors gave her up. She looks well now."

"She is well. After the doctors gave up her case she tried Dr. Pierce's Favorite Prescription" and began to get better right away. I heard her say not long ago, that she hadn't felt so well in twenty years. She does her own work, and says that life seems worth living, at last. "Why," said she, "I feel as if I had been raised from the dead, almost." Thus do thousands attest the marvelous efficacy of this God-given remedy for female weakness, prolapsus, ulceration, leucorrhoea, morning sickness, weakness of stomach, tendency to cancerous disease, nervous prostration, general debility and kindred affections.

"With land at \$20 an acre," remarks an exchange, "one glass of beer at five cents represents a piece of ground nine feet wide and twelve long. Remember this and when a fellow asks you to drink tell him you will take five cents worth of real estate instead."

A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. O. Pecor & Co., and S. P. Campbell, & Co., of Aberdeen Ohio.

THE river and rains yesterday played havoc with the banks on Walnut street down to the water-works in East Maysville. According to reports, it cut away the fences and washed off ten or fifteen feet of ground from the places occupied by R. H. and C. L. Stanton, lot of Mr. Blank, of Octavius Alexander, the James H. Hall Plow Company, Robt. F. Means and others. Complaint is being made and something should be done immediately to stop this destruction.

We easily and cheerfully explain: **We sell much the Best Goods at much the Lowest Prices;** all having learned it, this is why we sell more Clothing than all other houses in Maysville combined.

There is considerable feeling, and the prospects are favorable for a number of lawsuits, but the building of the road goes bravely on."

Condit, of Ashland, in the Murphysville and Sardis M. E. Churches, Tuesday and Wednesday, May 10th and 11th. Rev. S. E. Wishard, D. SENATOR SHERMAN'S ESCAPE FROM CUBAN BANDITS.

The Notorious Matagas Leads a Band to Capture the Ohio Statesman for Ransom. Desperate and Daring Plot Just Made Known—A Sensational Dispatch.

New York, April 23.—A special from Key West, Fla., to the Herald says: From private letters from Havana it is learned that a party of kidnappers or outlaws, comprising much of the dangerous elements of Cuban banditti, had arranged to capture John Sherman on his recent visit to Cuba. The project only failed by a difference in time.

The plot was well arranged, and the banditti were in sufficient force to capture Sherman's party, but fortunately for the distinguished gentleman's safety, they left the plantation intended as the scene of the outrage just five minutes before the outlaws appeared. It is thought the owner of the plantation was a party to the scheme. The foregoing appears in a paper published today. While in Havana Mr. Sherman took occasion to congratulate the captain general on the peace prevailing throughout the islands.

When the senator, however, expressed a desire to visit the sugar plantations in the interior, the military guard was sent as an escort, and the entire party merely escaped an unpleasant surprise. The letter referred to above, after mentioning several wealthy Spaniards recently captured and held for ransom, says: I also learn that a few minutes after the visit of Sherman, Manderson, McCook and the Spanish officials to the plantation of Federico Lambert Fernandez, at Colon, the bandit Matagas arrived in search of the Americans.

Upon being told by the overseer that the party had left, he was severely bent on to make him divulge their hiding place. The bandits satisfied themselves by searching the plantation immediately, and then retired. Matagas was in full uniform, and his band was well maintained and armed to receive such distinguished visitors.

A Negro Refused Equal Rights.

FREEPORT, Ill., April 23.—Considerable excitement was caused at the De Soto house, Galena, Grant's old home, yesterday morning, by William H. Blewitt, the proprietor, who ordered a young colored man named Wright, of Freeport, out of his dining room. Wright was with Company G, Illinois National Guard, of Freeport, whose athletic club gave an exhibition at Galena. When Blewitt passionately insisted that the colored man should leave the room, Capt. Wittbecker and all the others of his company in the room, some twenty or more, left the house and got their breakfast elsewhere. Wright was with the guards to look after their baggage.

Searching in the Debris.

SAN FRANCISCO, April 23.—The project of washing the debris of the Delmonico at Monterey, and treating it like the tailings of a mine is being carried out with better results than were anticipated. So far, in one-half of the debris sluiced, property to the value of \$20,000 has been recovered. The diamonds have nearly all been found in their settings, but most of the coin has been melted. The hotel books have been found and will prove of value in various ways. There is a general belief that the hotel was fired by an incendiary.

A Limit to Kentucky Whisky.

LOUISVILLE, Ky., April 23.—The Kentucky Distillers' association has come to an agreement with a number of large distillers outside the association by which the production of Kentucky whiskies will be limited. An agreement to suspend operations on May 1 next until March 1, 1888, and then to run only during March, April and May, has been extensively signed and a meeting will be held soon to decide upon a penalty for a violation of the agreement. The limitation of production would have the effect of restoring confidence and making the market strong and active.

A Rat Story.

LANCASTER, Pa., April 23.—Ambrose Singleton and his brother keep a store at Mechanics' Grove, and the building is infested with rats. They have heretofore been looked upon only as disagreeable pests, but now a war of extermination is being waged because one of the rodents attacked and nearly killed a two-months-old child. It forced its head into the child's mouth, thus preventing its crying, and ate away the flesh from the roof of the mouth and lower jaw. The physicians have some hope of saving the child's life.

People Delighted and Disgusted.

WACO, Tex., April 23.—The glorious rains of Western Texas that have filled the heretofore almost dry channel of the Brazos river have brought with the current a mass of polluted cattle carcasses that offset the advantages of the rain, and gives promise of disease. The carcasses are evidently from the alkali country, as they are entirely devoid of hair. The stench from the floating carcasses is dreadful. The people are no less delighted at the volume of water than disgusted with the pollution.

A Witness Arrested.

RAHWAY, N. J., April 23.—During the investigation into the murder mystery last night, Joseph Reiffe, a farm hand, while on the witness stand, created the impression that he was withholding something. He was put under arrest by the coroner and taken to police headquarters. It is said that the authorities are possessed of some information which will connect him with the murder.

Never Saw Such Hall Before.

ROLLING, FORK, Miss., April 23.—At 2:15 yesterday afternoon a hail storm passed over this section, the like of which has never been witnessed here before. When the hail first began to fall the people thought the roofs were being torn from their houses. It hailed steadily for thirteen minutes, and hail stones fell that were larger than hen's eggs. Holes were knocked in the roofs of houses and trees were partially stripped of their foliage.

Murderous Assault by a Burglar.

LOUISVILLE, Ky., April 23.—Jennie Boymer, employed as a domestic by Mr. A. Y. Johnson, while left alone in charge of the house, was nearly murdered by a negro, who came in, and finding her alone, attempted to rob the house. Jennie resisted, and he beat her head with a poker so badly that she will probably die.

They were to decide whether she had practiced medicine for gain or whether she was insane. If she was insane she would be put in an asylum.

Akron's Meat War.

AKRON, O., April 23.—Akron's meat war has broken out afresh. It is now Swift, of Chicago, against Armour. When Armour shut his retail shop here last Saturday, the local butchers agreed to buy of him as before the boycott, practically throwing out Swift's meat, a considerable amount of which came here during the boycott. Now Swift has sent a man to Akron who to-day opened a retail market with twelve cents as the highest price for steak. Akron butchers, with Armour back of them, will meet the cut. Since Armour left the old high prices have ruled.

Fires at Marietta.

MARIETTA, O., April 23.—An organized effort was made early last night to burn the C. W. & B. depot and several barns. The depot fire was extinguished with little damage, as was the blaze in Henry Fearing's barn. The barns of Capt. Levi Barber and Charles Buchanan were burned to the ground. All the fires occurred within an hour. There is no clue to the incendiaries, and the town is intensely wrought up over the fires. The department did good work.

Thirty-Two Names for Senator.

TALLAHASSEE, Fla., April 23.—In the legislature the vote cast for United States senator was distributed among thirty-two names. A dark horse has entered the Democratic senatorial race in the person of Samuel Pasco. The eighth ballot in the caucus was: Perry, 31; Bokham, 31; Pasco, 23. It requires fifty-seven to nominate.

HALIFAX, N. S., April 23.—The report that the Pictou coal miners' strike had ended was premature. Overtures have been made by both sides, but nothing has been definitely settled. GOOCH'S MEXICAN SYRUP

OF WILD CHERRY, TAR, GLYCERINE, ETC. WILL CURE CONSUMPTION.

Is the best remedy for the cure of all affections of the Throat, Lungs and Chest, such as Consumption, Colds, Coughs, Asthma, Whooping Cough, Croup, Pain or Oppression of the Chest, Hoarseness, Spitting of Blood, and all Pulmonary Diseases.

CONSUMPTION CAN BE CURED!

WE have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. Tuberculous matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what this Syrup does. It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It thus controls Coughs, Night Sweats, and all other symptoms of Consumption. Consumption is one of the most loathsome and terrible of all diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine; but a new era in the management of pulmonary diseases seems to be dawning upon the scientific medical world, and, since many distinguished physicians have acknowledged that consumption can be cured, few there are who attempt to controvert our opinion. To those stricken out as victims to that fatal malady, we offer a remedy sure in its result to bring back health to their poor weakened frames, and joy to the hearts of their friends.

Consumptives, because all other things fail, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with threatening vice, menacing the health and existence of a vital organ; so commence at once at the first indication of a cough. TRY IT, you who suffer, and be convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. The remedy is in the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 cents? I do, make one more trial. Is not your life indeed worth one more trial? Test the truth of our words, I only by one single bottle; and never give way to despair till you are certain there is no hope. It has cured thousands, and it will cure you. As we would plead with a friend to save him from taking his own life, we plead with you to save yourselves from a premature grave. We positively guarantee perceptible and permanent improvement when the medicine is faithfully and persistently used.
